

Doctors studying Cancer create a New All Natural Essential Oil Blend to alleviate many skin conditions

Beverly Hills, CA– GS Products, who has brought the industry Gerda Spillmann, and Quintascent LLC will be working together to bring NovaMoist to the Beauty and Skin Care Industry. This All Natural product helps to eliminate dry skin and may help to alleviate many inflammatory skin conditions while soothing and moisturizing the skin.

Developed by two physicians, Dr. Carlton and Dr. Safra, and inspired by centuries-old Tibetan remedies, [NovaMoist is a blend of 100% pure essential oils](#). Made of 8 essential oils, Lavender, Rose, Geranium, Clary Sage, Bergamot, Juniper, Fennel and Sesame Oil, this unique and all natural formulation is anti-inflammatory, anti-bacterial, anti-fungal and may provide rapid pain relief while restoring moisture to the skin. NovaMoist contains no chemical additives, synthetic fragrances, petroleum derivatives or animal products; it is completely natural.

NovaMoist was created eight years ago when Dr. Robert M. Carlton, M.D., board certified in Obstetrics and Gynecology and a Fellow of the American College of Obstetrics joined forces with Dr. Tamar Safra, a medical oncologist on the faculty of University of Southern California. They were searching for a natural solution in bringing relief to skin discomfort experienced by cancer patients undergoing chemotherapy and radiation treatments. The doctors extensively reviewed the pathology of many of these skin problems. After completing their research, Dr. Carlton and Dr. Safra created a natural, safe and unique blend of natural essential oils that soothed, moisturized and brought immediate and sustained relief to the skin conditions they set out to alleviate.

With only one to two drops of NovaMoist applied to the skin, the natural oils can provide quick and long-lasting relief to many skin conditions, inflammatory problems and chronic skin issues.

May Benefit The Following Skin Conditions or Symptoms:

- Itching and Burning
- Pre and Post Menopausal Dry Skin
- Cuticles and Cracked Nail Beds
- Dry Elbows
- Cracked and Flaking Heels
- Parched and Cracked Lips
- Chemically Irritated Skin
- Face Peels
- Waxing
- Shaving
- Radiation Dermatitis
- Chemotherapy
- Eczema
- Rosacea
- Psoriasis
- Lupus redness
- Lichen Sclerosus
- Stasis Dermatitis

NovaMoist is designed to be used for many skin conditions and on all parts of the body; because of this people have found relief literally from head-to-toe. The synergistic blend of these natural essential oils forms a thin, smooth, non-greasy layer of moisture and protection, which is rapidly absorbed into your skin bringing sustained relief to skin discomfort and promoting healthy skin.

For most applications, one to two drops of NovaMoist is all that's needed, three times a day for three weeks initially. To maintain beneficial results, NovaMoist should then be applied three times a week or as often as needed.

Retail cost: \$19.99 - .33oz
